Pre-K Two Week Math Calendar

Mon.	Tues.	Wed.	Thurs.	Fri.
Use objects to show a set of 5 on the ten frame on the back of this sheet. What is one more than 5? What is one less than 5?	Use objects to show a set of 2. Then show a set of 5. Which set has more? Which has less?	Use cereal (or other objects) to make a pattern. For example, fruit loop, cheerio, fruit loop, cheerio...	Use objects to show a set of 6 on the ten frame. Take the objects off of the ten frame and put them in a circle. Do you still have 6? Recount to check.	Name these numbers: 3, 6, 4, 8, 10
Sort some toys. Tell how you sorted.	Count to 10 out loud. Count higher if you can.	Find 3 squares in your house.	Use toys to show a set that is less than 5.	Draw a picture with 3 circles, 2 squares, and 4 triangles.
Mon.	Tues.	Wed.	Thurs.	Fri.
Use objects to make a set that is greater than 5.	Pick up a book and a stuffed animal. Which one is heavier? Which one is lighter?	Name these numbers: 2, 9, 5, 1, 7	Tell 2 family members to stand next to each other. Who is taller? Who is shorter?	Sort some of your clothes. How did you sort them?
Find 3 circles in your house.	Use objects to show a set of 6 on the ten frame on the back of this sheet. What is one more than 6? What is one less than 6?	Find 3 rectangles in your house.	Show the number 3 in different ways: use objects on the ten frame, draw a picture, and show a group of toys.	Make a group of 3 pennies. Then make a group of 4 pennies. Which has less? Which has more?
