Scope/Objective of Project:

After reading *Out of My Mind*, 5th grade students visited the [MakerLab](#) to design and create various assistive devices that could be used by Melody based on their understanding of her strengths and needs as described in the novel.

Pictures of Select Projects:

A wheelchair for Melody #outofmymind #cerebralpalsy Hard work with hot glue, bottle caps, cardboard!

Madeline-my creation is a chair/walker to help people with CP walk.

#MakeYourOwnCreation to help!

Charlize & Charlotte-here's something that can help people with CP #cerebralpalsy #mechanicalarm that grabs things

Owen-I made a mechanical arm and leg, a microchip, and green button to help people with CP. #outofmymind
